

School Leader / School District Leader/ Organizational Leader Support Letter Template

Include one support letter from your school leader (principal or vice principal) or school district leader (superintendent) which demonstrates his/her/their commitment to engaging students in maker education as a pathway to computer science and his/her/their support of your proposed project and participation in the Making CS Inclusive cohort if you're chosen as an Infy Maker Award winner. If you are an educator within another organization or institution, please include a similar support letter from a leader within your organization or institution. This could include the Executive Director or Director or the Dean of your department.

Dear Infosys Foundation USA,

Maker education is a powerful way to engage all students in computer science by creating opportunities for them to understand how computer science fits into real-world problem solving and making computer science personally and culturally relevant.

I would like to express my support for [add name of entrant educator here] and the [add name of proposed project here] in applying for an Infy Maker Award. I truly believe these efforts will create more opportunities for students and educators to engage in maker education.

I also recognize the importance of having 2-3 representatives from [add school / organization name here] participate in the Making CS Inclusive professional learning experience facilitated by Digital Promise if our school/organization is chosen to receive an Infy Maker Award. This professional learning experience will help us expand what we are doing in maker education by allowing us to connect with like-minded educators from across the U.S. and help us develop approaches to engaging students in computer science through maker education that are sustainable and scalable. With this letter, I am providing my support and authorization for the representatives named in the Infy Maker Awards application to fully participate.

Sincerely,
